

Data Storage, Access & Integration Tools

# Fusion BI Toolkit

Bring together models, benchmarks, and visualizations to create tailored insights for data-driven decision making.

## ► Business Intelligence Toolkit

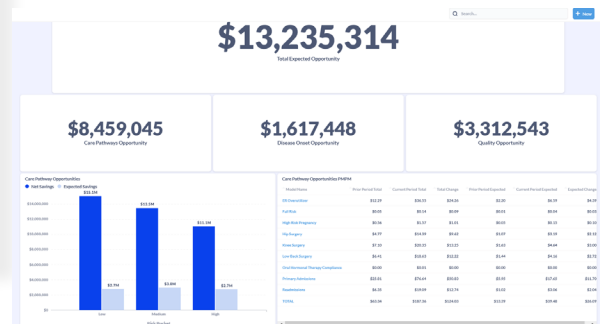

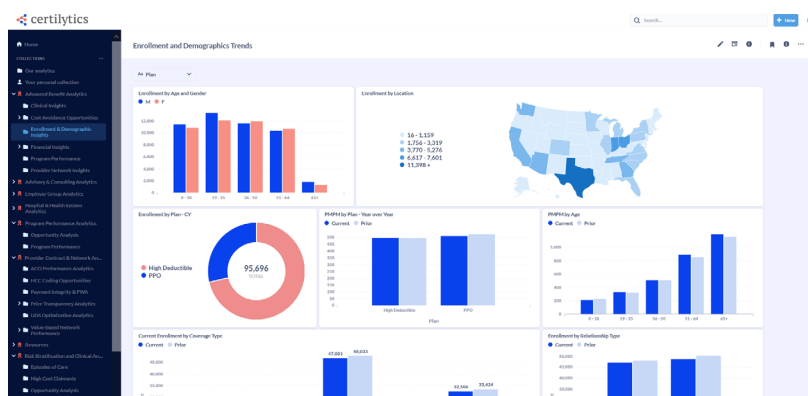

A powerful tool for visualizing and sharing data and predictive analytic insights within a healthcare organization.

### A Flexible Tool

- Provides users with direct access to their cleansed and standardized source data
- A web-based BI tool with SQL and WYSIWYG query building
- Ability to integrate and embed dashboards, charts and graphs in other applications

### Data-driven Decision Made Easy

- Ask questions and create dashboards without extensive knowledge of SQL
- Easily create and share interactive dashboards, from TB-scale analytical workloads to day-to-day operational workflows, with 15+ visualization types
- Pre-built collections and dashboards for powerful out-of-the box analytics
